

**AMENDMENTS TO THE ABSTRACT:**

Please replace the Abstract with the following rewritten version:

The invention relates to a control system ~~including~~comprising control means and a user interface, ~~thesaid~~ user interface ~~including~~comprising means for communication of control signals from a user to ~~thesaid~~ control means, ~~thesaid~~ user interface being adaptive. According to the invention the user may interact with the user interface and thereby establish signals to be communicated to the control means for further processing and subsequently be converted into a certain intended action.
